8. What are some of the important considerations within this area as the West End continues to evolve?

Response	Count

You say that, but hasn't another ginormous multi family project been announced over there, or is that west of Academy? Keep sidewalks in good repair. We never see children playing outside but we do s ee parents with strollers. We need a few more small low rent retail for everyday boring services...shoe repair, dry cleaning, small hardware.. Keep the streets narrow with plenty of angled parking where pos sible.	1
You are already making the side walks handy cap accessible, but they still could still use some lightin g over there. Please Keep this street residential ! No condos or three story town homes.	1
what is important is to keep the housing and help the residents to improve and maintain the property a s a place to live and build community.	1
We were recently looking to purchase a home and it seems like most of the new developments in the area are luxury style homes/condos with prices over $600,000. I hope that going forward there will be a mix of housing built! It would be sad if it became a neighbourhood where only the wealthy could live. Given that we have a number of homeless neighbors in downtown Greenville I hope that the expensiv e building will be taxed enough to provide housing for those experiencing homelessness.	1
We need "no parking" signs along the streets, and more street lights.	1
Water runoff, street litter and trash accumulation. Safe street crosswalks	1
Those are cute and charming bungalow houses, but many of them have fallen into some disrepair ove r the years. As new families want to move back into the city there should be encouragement to mainta in the feel of the larger houses at the beginning of PERRY Avenue in the craftsman style bungalows t owards the end. Avenue leading into the village	1
This street is a gem and needs to be maintained as private residences. But it can also be a gateway t o Unity Park from the other side of Academy. A safe way to get across Academy is needed near or on Perry.	1
This street / area is lined with lovely single family homes. Several high end duplexes or small multiple xes have been built here recently that improve the neighborhood yet maintain the character. This sho uld continue. I'd like to see the streets repaved and more park-like spaces to give it a more "finished" l ook.	1
This area should be kept as is. These are historic homes and are a fantastic residential anchor for the West End.	1
This area should be high density, but mostly single family residential. No large multi family.	1

The West End, like many other neighborhoods has lost many of its older homes. Processes need to be put in place to slow the ability of a developer to receive a demo permit and this action needs to be given public comment- similar to the Charleston BAR panel. Overarching change/improvement/implementation of protections are needed for residential structures. Without the luck and vision of a select few developers, Perry Ave could easily have turned into a condo/brownstone/townhome st within the last 8 years. To preserve the character that you have brought attention to, then the mosaic development not include townhomes on Perry Ave and the Employment office needs to be rezoned/re-parceled to support Single family homes on Perry Ave to establish the neighborhood character before it is gone, otherwise Perry will be spliced in half creating a peninsula or an island of residential surrounded by Commercial development. Special exception/conditional uses of RDV need to be abolished and a new zoning designation is needed. If RDV will not be changed, then the process of public notice and comment needs to be overhauled to include a public review panel. Any Commercial properties within the study area should be included in the boundaries of the DRB. CARGO/TREHEL had no DRB review. Though not perfect, all Commercial properties within the study area should have to comply with the City's Downtown Design Guidelines.	1
The defining characteristic of Perry Avenue is the openness of the residential lots. Fencing and barriers are mostly absent, or they are rare, low, and transparent. I believe Perry Avenue should remain residential and single-family, but with higher density, particularly town-homes. THE OPEN FEEL SHOULD BE MAINTAINED so that new developments feel well integrated and do not read as enclaves. Activated front porches must also be encouraged to maintain the second most important characteristic of the neighborhood. Secondary dwellings (mother-in-law suites, etc.) should be welcomed and encouraged over time in the back of existing homes so that over time this part of the West End achieves a density more appropriate to what this part of Greenville is becoming. Reserve green space for a neighborhood park.	1
The city should remember to keep some affordable housing in the area. A park would nice.	1
That area appears best suited to low-rise residential.	1
Small grocery,	1
See comments in #9 below.	1
Retaining the zoning for housing only! If new development is added, matching the design to that of the historic character of the existing homes.	1
Resist the urge to allow the single family homes to be torn down and then rebuilt as mini mansions.	1

Protection of current residents and single-family home owners. As the WE evolves, what will happen to the homeless population that frequents the area on foot to get to Miracle Hill/United Ministries? Please also consider how traffic may increase as the area develops, particularly with the apartments being built. It will be important, as well, to maintain nice, wide sidewalks and consider pedestrians. Connecting the WE to Main Street, parks, and other future developments for pedestrians would be another important consideration. We also really need more green space in the West End for dogs, families/friends to gather, walking, etc. Whatever ends up happening to the unemployment office on Perry/Pendleton will affect many single-family homes in the vicinity, so I hope the city/powers that be involve the neighborhood and take plenty of time to properly plan for what the space should turn into, for the benefit of Perry Ave residents, the West End, and Greenville as a whole.	1
Protect them at all costs. Diversity is preferable.	1
Preserve! As we've seen on Main St, as demand for property rises it creates tremendous upward pressure on prices. Good for the individual seller, but bad for the character of downtown. Higher sale prices for same size property and market constraints on rent means new owner/developer must create more square footage to get their return on investment - and this means going vertical. And that means the end of the appealing character of Main St, West End and Perry Ave area. So courage of leadership to resist designs going vertical is required; seems such leadership is lacking in Greenville.	1
PLEASE keep this single-family character intact! We are a great example of affordable housing mixed with high end development of single family homes. PLEASE do not let the temptation of the almighty dollar sway you into believing that the character of Perry Avenue should change. We love our neighborhood and will be so disheartened if the city allows a densely populated apartment complex to crush our character and change where we have invested our hearts and souls. We are a street of long term committed home owners. Apartments have immense turnover because the renters are NOT invested in our city long term. Walk Perry Avenue and come see why we love it so much.	1
Please do not overwhelm the single family houses with large-scale, high density, high traffic developments	1
Perry Avenue is filled with historic homes and has a vibrant community. Unfortunately some duplex structures have been allowed to be built and other larger complexes proposed for this street which undermine the inherent charm of the street. This street would best be single family homes, ideally redeveloping or renovating some existing structures. Also the unemployment office on Pendleton that backs up to Perry could be moved to another location and that location might be great for a specialty grocery, Art galleries etc. or in filled with single family homes.	1

Perry Ave has some vocal residents wanting to maintain the single family nature of the street. As a city and a community, we need to take a stand against SFR. It drives up the prices of residences, and is only an option that rich people can afford. Perry should evolve, over time, to allow more densely packed townhouses, row-houses, small apartments, maybe even neighborhood shops.	1
Not sure but Hope parking is convenient and the area is walkable	1
Not familiar enough to comment--not sure I know the exact area	1
New single-family home options including townhomes for under $500K	1
Need to “protect” these existing historic homes - so that the character of the neighborhood remains intact. Any “in-fill” along Perry AND surround streets needs to appropriately “fit” in character and scale. ALSO, more MISSING MIDDLE HOUSING (homeownership) needs to be added into the residential streets surrounding Perry and Rhett Street - down Ware St., McCall, Grace, Watson, Leach, and Calhoun Streets.	1
Most important: Retain the single family home neighborhood character that currently exists. The proposed Mosaic project will destroy that. There are very significant issues with zoning, density, traffic, etc. that need to be addressed by the City. We remain firmly opposed to this project.	1
More houses.	1
Many homes on Perry need to be spruced up. Sidewalks are inconsistent. Avoid encroachment of multi-family. Do some street beautification, including requiring property owners to pick up trash.	1
Maintaining the existing homes within Perry Avenue and respecting the uniqueness and charm they provide. Maintaining the big beautiful trees that line parts of Perry Avenue. Avoiding night clubs and bars which would be constructed on Pendleton, Callhoun and Academy Street that would essentially box in the existing single family homes on Perry Avenue	1
maintaining single family homes with yards, safety of crossing streets, while there may be stop signs crossing Academy to get to the West Village is taking your life in your hands. Crossing So Main is the same - again - come to the corner of Anderson and So Main and sit on the corner for an hour in the afternoon/evening.	1
Maintaining single family homes instead of surrounding the existing homes with apartment buildings.	1
Maintain the single family character	1
Maintain historic single-family houses whenever possible. Make the new builds fit well into the neighborhood as best possible.	1

Love the character of this street and concerned for the new multifamily units going in displacing the single family homes. Love the trees and my dogs love the squirrels! Would be wonderful to connect this street with the other communities on the south side of Pendleton to enlarge the sense of community.	1
Keeping that history! Also keeping that same style.	1
Keep the small homes! They are inviting and historic and all they need are face lifts! Just as you wouldn't touch the historic district homes, make these less nicer single family homes flipping projects! No more condos!!!!!!	1
Keep the commercial uses along the avenues to protect the West End neighborhood and it's families. The multifamily zoning makes us a target for money-making, neighborhood-killing projects, so downzoning is essential and well as developing infill ordinance for neighborhoods like ours.	1
Keep the character. It is great to have this kind of neighborhood in the West End. The homes that are being built/renovated are Perry look amazing and will only help add value to the area. Keep that character and it will sought after and hopefully get the reputation that North Main has, or McDaniel off Augusta.	1
Keep Perry residential.	1
Keep Perry Ave. as a single family neighborhood with any new houses keeping in scale with existing homes. High density developments - whether rentals or condos - do not belong here.	1
Keep natives to this area in this area. Don't price them out	1
Keep it residential with single-family homes except where busy streets like Academy are conerned	1
Keep growing. It's important to maintain some of the city's roots, but growth is good for all as well.	1
Keep as much as Perry in tact as possible. We need more Ownership in the West End.	1
It would be perfect if the single-family homes could be kept as they are, so there is a "family'style" neighborhood in the area. If homes are removed and replaced, try to replace them with buildings that mimic the cottage style architecture that is there now to the fullest extent possible.	1
It is important to maintain the character of the single family homes and reduce any expansion of large apartment complexes in this area.	1
Increase density with the careful addition of smaller scale Missing Middle Housing types - quadraplexes, triplexes, duplexes that front the street and fit in with established aesthetic and scale of SF houses on Perry - buffering the SF neighborhood on Perry at from Academy	1
Improved walkability / sidewalks and traffic calming features on Pendleton St.	1

If the city acknowledges that as the character, which it certainly is, they should be opposed to the mos aic development. The density is way too high. Not everyone wants to share walls with their neighbor. Keep this a single family housing where it is desirable to raise children. Don't make AJ whittenburg an overrun school.	1
If at all possible find some affordable housing options that are well maintained and become a source o f pride & ownership.	1
I think it needs to stay single family and have so affordable housing options mixed in. There are a few duplexes and multifamily developments mixed in that seem out of place.	1
I think it is important to protect the single-family neighborhood character of Perry Avenue and surroun ding streets -- and for us to find ways to help long time residents to be able to afford to remain in their homes there.	1
I started this above. We must protect those neighborhoods and respect the property owners. Most im portantly we must protect older homeowners from being pushed out!	1
I dont know enough about that section sorry. But hear me out if you have the engineers creat a floatin g theater stage where people can walk on the street and see bands playing near the street. Think you r peace center outside on a smaller scale suspended over the street or at the top of one of the restura nts. Maybe it's a dumb idea. Or give us a dog bar. Where I can have a beer and my buddy can be wat ched by a dog sitter.	1
I believe keeping prices affordable for certain types of homes is very important. Don't price out the pri ce conscious. I love the house and like seeing the diversity but I can tell that some neighbors feel like they're being edged out. This is their home just as it is mine and yours.	1
Hate to say I don't love its chances of staying that way. I'm not as alarmed by this as I'm sure others w ill be in their responses. To me, as a renter, that's enormously valuable space that I can see being dev eloped over the next 20 years. Eminent domain and add 15% ;) ... hate to say it for those families, tho ugh.	1
Ensuring that all residents have a voice and stake in the growth of the area. They've been here the lo ngest!	1
Don't let the residential nature of this area be lost!	1
Don't wipe out the history. And don't remove too much greenery. We'll be sad we did it one day	1
DO NOT let the Mosaic project come in! ....this is AWFUL!	1

Definitely protect the residential, mostly single-family character of Perry and the side streets that connect to it.	1
Def. zone to keep the single family homes in place. While apts are needed, there are lots under construction and if housing gets too dense then you'll need infrastructure upgrades to deal with traffic, so please don't let it become too crowded.	1
Continued attention to similar living spaces, with addition of community public green spaces.	1
Continue to make this single family homes, bury the electrical lines to allow for more trees and make a safe way to cross Academy street (to get to Village of West Greenville and Unity Park).	1
Blend with south main good lighting and walking paths, green space	1
Better sidewalks	1
As mentioned, scale is key here. Keeping the character of the neighborhood while also increasing density and filling in underutilized land is important and will not be easily accomplished without some creative initiatives. Smaller apartment complexes, like the West End Commons and missing middle housing would fit. Keep mixed use with retail along Main and Pendleton rather than force this on side streets like Calhoun.	1
Arts and crafts homes should be kept and architectural controls for new construction to follow historical like kind homes.	1
Although I understand the need, I wish the Soup Kitchen could be moved if it’s not in the most central location for the people it serves	1
A pattern book with design guidelines is needed. Encourage affordability and diversity in residential and commercial. This area could offer a variety of restaurant options that show the diversity of cultures in our community.	1
A good mix of Single Family and multifamily properties is key. It adds to the character and walkability of the west end.	1
The character of the West End.	1
- Keep the charm - Keep the long time residents. - Control existing developments to NOT lose the feel of a single family house neighborhood. These can be done in a smart and funky way. - Add a small little park, especially if a big development is going to come in. - Parking on the street I feel will be at risk soon, set something up to let residents keep their street parking - Better street lamps that don't buzzzz. Classy main street style lamps - Bury the power lines	1

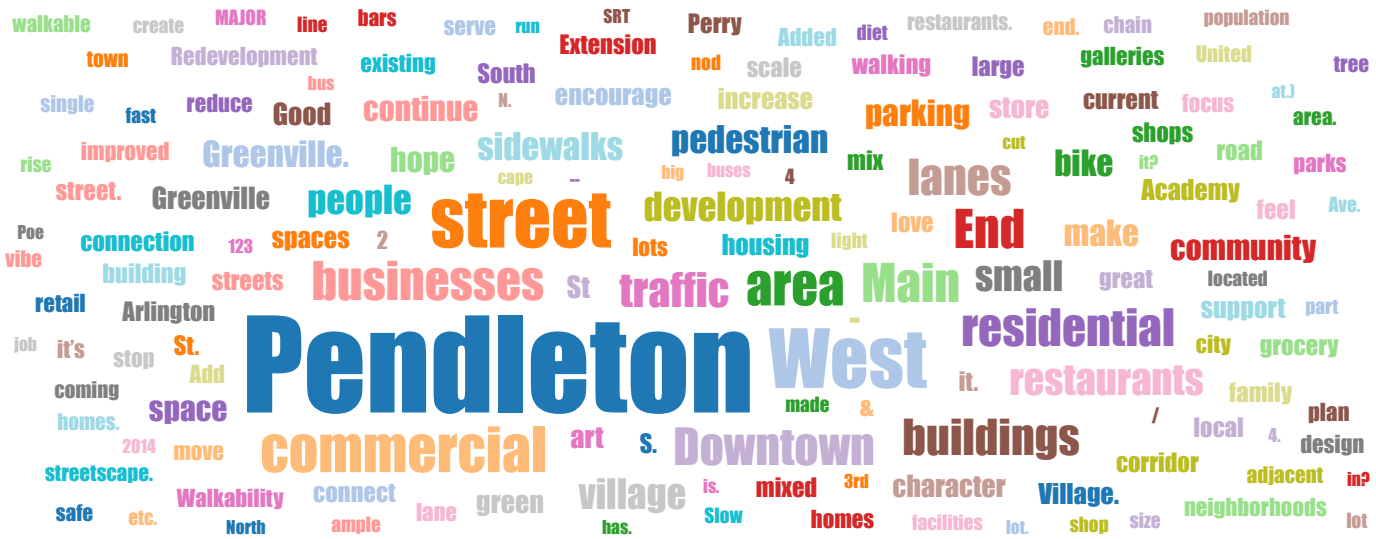
9. How do you foresee Pendleton Street changing in the coming years to complement the improvemen…



Response	Count
Would love to see it extend main st to academy and beyond to west greenville. Small shops and restaurants, breweries, parks	1
With the increase in the West End population and more coming, Pendleton is prime to service the needs with a Major Grocery, Mixed Use (like Poe West) and more restaurants. This would spur ownership and development on adjacent streets to the West and South of Vardry. I would hope all the United Ministries facilities, which does a great job of servicing the community, could maybe be located elsewhere that could create a good balance of servicing the community and development. Development would be difficult on Pendleton with its current locations	1
We think that area is so much commercial at this point that there is no alternative use for it. The focus there should be on evolving better design and streetscape.	1
We need better sidewalks and lighting. The area from Pendleton and Main to the Village is not conducive to walking around the area and doesn't feel very safe. We need a better vision for this area while keeping affordable housing as a priority.	1

Update buildings - no Highrise buildings Parking Diner/sandwich shop Maybe another stop light to slow traffic Also stop signs on Arlington Ave. it is a dangerous cut through with very fast traffic with no stop signs!	1
This part of the city will benefit from continued use of mixed commercial and residential but this close to downtown should increase housing density.	1
This area should continue to add shopping and other commercial uses, but done in appropriate scale and character to the existing residential homes. Wider sidewalks, landscaping, streets cape, and small pocket/public parks added with art and a nod to the history. I also feel that more Missing Middle Housing (homeownership) needs to be added to this corridor which could also accommodate some retail or commercial space within its scope.	1
This area needs to be brought back to being a safe, attractive area that will entice people to explore new businesses, restaurants, etc.	1
There should be more single family residences of houses, town houses and condos. Apartment buildings should be limited. Some sores and commercial should be carefully planned since there are so many empty store fronts up and down Main St and in the West End. All utilities should be underground and the sewer system needs upgrading and the street widened.	1
There are several businesses along Pendleton that can serve as examples of how this street should be developed. Other than light pollution from the parking lots the Trehel and the Legacy buildings are good examples of Pendleton fronted properties. Development here should not go any higher and scale down as it moves off of Pendleton. Small, independent businesses should be encouraged and incentivized to move into this area. Would be great to see more art galleries in this area to help promote Greenville as an "artsy" town.	1
The ramshackle nature of the neighborhood is appealing to some degree but it does need organization. Bring on more art shops, exercise studios and music venues. You could use them and give the other neighborhoods a run for their money. With as many people moving here , give them a reason to stay without being crowded.	1
The most important change for Pendleton should be to make it more walkable, with focus on pedestrian traffic over vehicle traffic. De-emphasize drive-throughs and parking lots and car washes and car-focused businesses. Attract retail and restaurants and shops and human-focused businesses. Widen the sidewalks and add bike lanes to make it a reasonable connection to the Village of West Greenville.	1
The "downtown area" of Pendleton is terrific. (Where Coastal Crust and the jewelry store is at.) Build on that in both directions. Keep development pedestrian friendly and attractive. That end of town should contain more single family homes and townhouses, reflective of Augusta Street neighborhoods and North Main.	1

Support those businesses and homes In place. Protect green space. Tear down or reuse unoccupied buildings before building on a currently empty lot.	1
S. Main Street/Pendleton Street should be narrowed to 2 lanes to better connect the West End and the Village. Slower traffic will encourage more pedestrian access. The intersection of Pendleton Street and Academy/HWY 123 should be improved to encourage multi-modal access. The intersection Vardrey, S. Main and Pendleton Streets should be better aligned to reduce opportunities for auto/pedestrian/cycling accidents. Although just outside the study area, the redevelopment of key properties owned by St. Francis/BonSecours Health System and its entire campus plan should be consistent with the Sterling Master Plan and the recommendations made in this plan.	1
Right now it's heavily post-recovery/institutional and low rise commercial. I would say mixed use buildings (stores & restaurants on the first floor, business on 2nd & 3rd, and housing 4th & 5th), but the lots share a property line with single family homes. It would seem like a logical connection between the entertainment district and the West Greenville node, except for that. PARKING IS A MAJOR HURDLE FOR THE ENTIRE NEIGHBORHOOD! Bike lanes, pedestrian friendly essential. More trolley stops?	1
Reduce to two lanes, add median and bike lanes, improve sidewalks. Address safety concerns at academy and Pendleton	1
Reduce to two lanes with biking/walking paths and becomes a natural connection from Main St to the Village of West Greenville. More shopping, restaurants, grocery store, green space, parks, play grounds, art galleries.	1
Pendleton Street would be wonderful for more residential development with a cute corner market, florist, bakery and restaurants. We love Revival Butchery in the Village. Everyone may have a different vision for Greenville. Entertainment District is a broad term. Providing more bars and nightclubs is hopefully not what the majority want for beautiful Greenville.	1
Pendleton Street should have prospering businesses located on it. It can remain a street with good traffic and parking lots for each building.	1
Pendleton street needs to continue to build a "funky" vibe, with artist studios, galleries, and great restaurants like the tea room and Coastal Crust. If new buildings are constructed, make them look old, mill-town rehabs. Include sculptures in the area.	1
Pendleton Street can become a vibrant commercial street properly managed, i.e., a mixture of office & retail. Excessive traffic is always a concern.	1

Pendleton St. presents great opportunities to gently increase residential density through live-work units, and other types on the small end of Missing MIddle. Encourage playing off the mix of mid-century modern inspired buildings (not the ones with huge parking lots!) and the older, residential still existing. I would like to see an eclectic mix as a nod to best of the past of Pendleton while eradicating the remaining automobile-oriented commercial that doesn't contribute to a walkable streetscape. Currently, walking on Pendleton is a very unpleasant experience - speeding vehicles, wide lanes that are never congested. There is ample ROW to reallocate space for bicyclists and pedestrians.	1
Pendleton St will continue to expand it’s commercial character, however, it needs to expand it’s pedestrian and cyclist safety measures to connect the West End Village to Downtown.	1
Pendleton st needs to be acquired by the city. So much time was wasted in 2014 about this street and nothing was done about it. We need actionable change by City Council and the city to acquire this from SCDOT/county/state to implement any change. Will Pendleton become another stone ave or can it become a real "complete street" concept to incorporate less road traffic and more pedestrian/cyclist use? How would this road diet play into the increase in traffic as a result of all of County Square's redevelopment and all of the new apartments in the pipe line on Pendleton?	1
Pendleton should have mixed use structures much like what was developed at the corner of Pendleton and Leach with combination of retail and office. Improved streetscape. lighting and walkability, cycling.	1
Pendleton has the potential to really become an extension of Main Street. But we need to reduce the street size, do similar streetscaping that was done along Main.	1
Pendleton has some of the most opportunity of the entire area and we are seeing that with the new trail building as well as the Greene. They are big opportunities to do some really cool next year’s buildings that encourage walkability from the West End into the Village. But, there is still blight along the street that must be addressed	1
Not sure of your "Pendleton Street" reference., as it relates to Academy and Augusta Streets. Do you have a map drawing of the area?	1
Needs an open space area for public gatherings	1
N/A	1
More walkability. There are so many homes on both sides, west village needs safe passage if they want to appeal to people staying in the hotels around here and seek more or a “Burroughs” vibe the Charlotte has. Like “oh you should go check out this place in west village, yeah you can walk there!!’’ Greenville is such a place for the active consumer. Seeing people walking and biking on Pendleton would appear way more appealing	1

More housing options would be good to keep costs competitive. That would be a good area for it.	1
Many commercial and other spaces are not attractive. Several large parcels are trashed out or unsightly. Repair sidewalks and make Pendleton more of an attractive gateway to downtown and the Village of W. Greenville.	1
Keep the funky stores and restaurants coming. I love the vintage vibes.	1
It should be an extension of the West End with the same trees, clean look all the way into the West Village	1
Inevitably this will be more and more commercial. Not many people want to live smack dab on busy 4 lanes. We do feel a bit vulnerable crossing Pendleton to go to Family Dollar so keep those sidewalks and crosswalks well marked! Europe adds zzzs on the pavement before a crosswalk as an added visual cue.	1
Improved walkability / sidewalks and traffic calming features on Pendleton St.	1
If commercial is to occur in Pendleton, it needs to reflect current occupants' needs. Small markets, coffee shops, art galleries, pocket parks. Minimal disturbance to the current residents should be highest priority.	1
I'd encourage innovative new businesses to come here. Barcade? Genius. Music and Dinner? Classic Outlandish but cool? Plant Bar...you buy a succulent and get a beer or glass of wine. Absurd and you didn't ask for it? Build an area where local chefs, artists, musicians, yoga professionals, anybody really willing to share their craft can schedule a class and have a bard or wine bar built in? Have a mom who wants to learn how to paint, a dad who wants to cook steak better, and a kid who wants to make cool science experiments? Make a space where the family can take a break from one another or do something together have a drink or a soda and pay local folks with special skills to teach them something new. The city of Greenville could take a little of the money and let the professional have the rest. Have giant glass windows or open architecture so people walking by can see everyone doing these cool activities and encourage them to take part in the future.	1

I would prefer to see Pendleton Street reduced in width and take on a residential character, allowing the communities of Rhett Street and Arlington Streets to become closer, not divided. The current traffic volume does not warrant a 4 lane road. Pendleton could easily be reduced to two lanes plus turn lane and bike lane and become a tree lined street (median) allowing for the feel of a residential community. We currently have significant foot traffic coming from the south side of Pendleton via Mallard toward Main without proper Pedestrian crossings, especially considering the bus stop along with United Ministries facilities and the need for people to walk to the Mental Health facility. This will only become worse as the development of multifamily homes and businesses at the corner of Mallard and Pendleton streets progresses. Reducing the width of Pendleton and creating proper crossings would be beneficial for community safety as well as strengthening sense of community.	1
I would love to see the artistic character of the community in the Village of West Greenville to continue to grow toward the West End on that end of the Pendleton (though that end of Pendleton is only partially within the West End area indicated for the Study Area). With respect to the other end of Pendleton (from South Academy to Saint Paul United Methodist Church), I presume that it will continue to develop in a more commercial manner. My primary hope is that the development could be managed so that Pendleton retains unique character to a downtown street -- and does not become a strip of fast food chain restaurants interspersed with office buildings.	1
I would like to see more residential than commercial. Soon families that live here will not be able to rest. It usually loud until 2 am	1
I would like to see better sidewalks, bike lanes, improved tree canopy, and less lanes for driving.	1
I think this area is where some of the new apartments should be. The road is large enough already to support the traffic and the increased population density on the the main road will be nice to support future restaurants.	1
I think it continues to become a more commercial area of the next few years since it is a "main" spine into the heart of the West End. It would be nice to see residential consumers to have useable services here (i.e. Drug Store, Grocery Store, etc.)	1
I see more of a commercial trend on Pendleton	1
I see it becoming an extension of S main. Added parking and two lanes instead of 4.	1
I indicated above my thoughts about Pendleton.	1
I imagine Main St style businesses will start to grow in that direction, potentially eventually connecting downtown to the west village. I personally think that is a good thing, as it will keep downtown from getting too crowded and over priced. Perhaps some of the non-customer service businesses will move so more restaurants and shops can come into those spaces.	1

I hope we focus on affordable housing, green spaces, encouraging small business, churches, recreati on centers to support those neighborhoods. Walkability, Bike lanes to the SRT and Unity Park.	1
I hope Pendleton Street will become pedestrian oriented to provide a seamless pedestrian connection between downtown and the Village of West Greenville. This would require wider sidewalks with chara cter underfoot and pedestrian oriented lighting. Nighttime activities along the way should be encourag ed: restaurants, music bars, galleries with longer hours, etc. Given the variety of buildings and the pro minence of large setbacks, on Pendleton, I propose the addition of a unifying element along the south side of Pendleton from S. Main to Academy. I suggest an intermittent, possibly meandering, and playf ul knee wall that would help create an identity for this section of the West End, while helping to define interesting spaces along the street. In the longer term density will increase along Pendleton, but let's plan for small green pockets and interesting corners, as well as lingering spaces all along the street.	1
I hope not to foresee night clubs and bars off of Pendleton street as they would essentially provide ov er crowding, parking, of cars off of Perry Avenue, N. Leach and Calhoun street belonging to non-resid ents of Perry Avenue and immediate cross streets. Development on Pendleton should mirror to some degree the look and charm offered currently by Perry Avenue and not emulate downtown Main Street or S. Main Street. It should look like a community separate of downtown	1
I hope it will become more bike friendly! Especially to connect downtown to West Greenville.	1
I hope it will be local companies/investments and not outsiders coming in just to make a profit. It is the connection to the Village. Making it an extension of downtown with large walkable sidewalks and an e clectic mix of local businesses would be great!	1
I honestly don’t know much about Pendleton and can’t picture it in my mind	1
I fear that traffic will increase on Pendleton without addressing how to better the infrastructure/traffic fl ow. I would love to see more restaurants and perhaps a small grocery store come to Pendleton in the WE. Also, it would be a dream to have the unemployment office on Perry/Pendleton transformed into a pocket park and/or mixed use for restaurant/small businesses with ample green space and sidewalk s for walking. Or perhaps a dog park - we do not have a dog park near downtown anymore, since it m oved way out to Mauldin.	1
I could see these commercial areas being a great place for a small grocery store or chain convenient store. There is a lot of residential living around the West End and from driving around, there are a lot of renovations and rebuilds happening with many craftsman style homes. If this trend continues a clos e/small commercial area will be needed to support it. It could support all of West Greenville if it extend ed beyond Academy Street and towards the Village of West Greenville. It would also bring jobs to the immediate area which I hear is needed.	1

I agree with the current mix of commercial, suburban-style uses, but hope that there will still be some residential development as well.	1
Hopefully making it safer with less crime.	1
Hopefully it can maintain it’s small charm with artist studios, crafts, more weekly festivals like Downto wn Alive on N Main	1
Good question :).	1
Extension of the retail spaces and restaurants, and building new community centers.	1
Do not allow any large buildings over three to four story's. larger side walks and lighting too will help.	1
Develop this similar to Greenville Main Street- tree lined and small businesses	1
Continue South Main Street / downtown character in this area. If traffic permits, a road diet should be considered.	1
Commercial spaces	1
Blending arts and vibe of west end.	1
bike paths to connect pendelton street to west end	1
At one of our WENA meetings, we were told of an existing plan, or idea proposed for Pendleton St. to serve as a neighborhood link from Downtown to the West Village. The street was to be narrowed to 2 lanes with bike lanes and and parallel parking and landscaping which would make it more pedestrian-f riendly than it currently is. We like this idea. Future commercial and residential development should b e in scale with the existing neighborhood (unlike the newly constructed Trehel building) and consist of appropriate neighborhood-friendly businesses and not chain restaurants with drive-throughs, gas stati ons or noisy late-night establishments. Any new development should blend in architecturally as well. T hese improvements to Pendleton would also serve to unite the neighborhoods on both sides of the str eet.	1
As rents and building costs rise, the people who made the area a destination, namely the art communi ty will need to move on. Then Pendleton just becomes a street like any other street in the country. Bus inesses will continue to move in and out.	1
Again, continue the trend toward a commercial corridor, but with strong design constraints regarding s ize, signage, set backs, green space, walking and bicycle accommodations. I wonder if a mini medical corridor could be envisioned based on proximity to St Francis medical complex.	1
Again, building design should be in keeping with the mill town feel	1

Add more green space and public art Places for people to be outside and relax Mini-parks	1
A design overlay for the subdistrict comprised of the blocks along Pendleton between Perry Ave. and Arlington, and S. Main and Academy St. should shape redevelopment and regulate the scale of buildings - both commercial and residential as they interface with existing SF residences. Especially along Arlington - maintaining a mix of residential and commercial uses is appropriate, but the buildings should be predominantly house-scale buildings rather than block scale buildings. Redevelopment along the Pendleton corridor should focus on increasing residential units and businesses in predominantly small and mid-scale buildings that front the street in a pedestrian friendly way and are intentionally designed to respect SF residential behind or adjacent -especially in the blocks between Perry and Arlington At least some businesses in this corridor should meet the needs of people living in the surrounding blocks in the West End & adjacent neighborhoods - rather than creating additional visitor destinations or places that attract people who are driving in from outlying areas.	1
- It should be 2 lane, with trees in the middle. It's kind of an interstate right now along with Academy. - Biking lanes should be prominent to connect downtown to the village - The businesses in between should serve community members, not tourists. Grocers, local market, parks, vets and animal hotels, maybe another coffee shop or two. - In the future, there should be autonomous buses connecting West End to Downtown GVL. - Slow it down, beautify it, make a safe crossing across Academy.	1
