**APPLICANT RESPONSE TO SECTION 19-2.3.2(E)(1), AMENDMENTS TO TEXT
(YOU MAY ATTACH A SEPARATE SHEET)**

1. DESCRIBE THE WAYS IN WHICH THE PROPOSED AMENDMENT IS CONSISTENT WITH THE COMPREHENSIVE PLAN.

The GVL2040 Comprehensive Plan highlights three priority areas – Open space and the environment; Affordable housing opportunities; and Transportation and mobility. The adoption of this proposed amendment would allow flexibility to better approach each of these areas. Allowance of larger lot sizes would make projects that include large swaths of open space, more affordable units, and increased transportation and mobility options more economical for developers.

2. DESCRIBE THE WAYS IN WHICH THE PROPOSAL IS CONSISTENT WITH THE PROVISIONS OF THE ORDINANCE AND RELATED CITY REGULATIONS.

The amendment proposes modification to existing provisions and to maximum lot width and depth. The Unity Park Neighborhood District Code (UPNDC) is in part a form-based code, which relies more heavily on a building's architecture and form to mitigate the perceived size of a building. Lot configuration is not necessary to achieve this goal. Removal of the maximum lot depth and width requirements would be more consistent with the overall Land Management Ordinance document and provisions.

3. DESCRIBE THE CONDITIONS THAT HAVE CHANGED FROM THE CONDITIONS PREVAILING AT THE TIME THAT THE ORIGINAL TEXT WAS ADOPTED.

The maximum lot dimensions were incorporated presumably to mimic and extend the form of Greenville's C-4 Central Business District. Upon initial adoption of the UPNDC, it has become more apparent that inclusion of the maximum lot dimensional standards could only artificially replicate the success of development downtown and that these regulations do not serve an identifiable purpose otherwise.

4. DESCRIBE THE WAYS IN WHICH THE PROPOSAL ADDRESSES A DEMONSTRATED COMMUNITY NEED.

The proposal addresses a demonstrated community need by allowance of larger lot sizes, which would make inclusion of open space, affordable units, and increased mobility more economical and attainable with projects in the UPNDC area.

5. DESCRIBE THE WAYS IN WHICH THE PROPOSAL IS CONSISTENT WITH THE PURPOSE AND INTENT OF THE ZONING DISTRICTS IN THE ORDINANCE, WILL PROMOTE COMPATIBILITY AMONG USES, AND WILL PROMOTE EFFICIENT AND RESPONSIBLE DEVELOPMENT WITHIN THE CITY.

The proposed amendments are consistent with the purposes outlined in the UPNDC, specifically in Section 1.30. Elimination of maximum lot width and depth: A. More closely replicates dimensional standards for the C-4 District and is a more adequate means to provide a transition from the central business district; B. Provides district standards that are both responsive to and appropriate to Unity Park and existing fabric of the area; and C. Increases the emphasis on form, scale, and design as opposed to using property lines as an artificial means to appropriately guide development in the Unity Park area. Achieving these purposes within the UPNDC will promote efficient and more responsible development in the City.

6. DESCRIBE THE WAYS IN WHICH THE PROPOSAL PROMOTES A LOGICAL AND ORDERLY DEVELOPMENT PATTERN.

The proposal promotes a logical and orderly development pattern by removing maximum lot size and dimensions as an obstacle to forming larger, more efficient and economical developments that are more able to provide amenities to the community and residents of the City.

7. DESCRIBE THE WAYS IN WHICH THE PROPOSED AMENDMENT WILL RESULT IN BENEFICIAL IMPACTS ON THE NATURAL ENVIRONMENT AND ITS ECOLOGY, INCLUDING BUT NOT LIMITED TO: WATER; AIR; NOISE; STORMWATER MANAGEMENT; WILDLIFE; VEGETATION; AND, WETLANDS.

The proposed amendment will allow larger lot sizes, which may provide additional flexibility on a property to address environmental impact. Larger land masses can allow for the provision of more open space, larger buffers, more appropriately located stormwater facilities, and areas for wildlife to congregate.

8. DESCRIBE THE WAYS IN WHICH THE PROPOSED AMENDMENT WILL RESULT IN DEVELOPMENT THAT IS ADEQUATELY SERVED BY PUBLIC FACILITIES AND SERVICES (ROADS, POTABLE WATER, SEWERAGE, SCHOOLS, PARKS, POLICE, FIRE, AND EMERGENCY FACILITIES).

The proposed amendment is not anticipated to negatively affect the adequate provision of public facilities and services and should maintain the current high level of services within the City of Greenville.
