B. V 19-880

Application by CHAD STEPP for a VARIANCE to front setback located at WILSHIRE DR (TM# 018400-05-06409)

Williams presented the staff report. The Board asked the following questions of staff. When the property was subdivided? Williams responded 2001. When was the front setback requirement for single-family homes established? Williams responded that staff does not have that date. The Board asked if the structure shown on the plat from 2001 with a 50 foot setback could be approved without a variance. Williams answer that staff is willing to honor the setback shown on the plat from 2001.

Chad Stepp, applicant and property owner, presented the application. Stepp stated that at the required setback line, his house would only be 11 feet wide. He stated that a 30 foot wide house at the proposed setback line would be more attractive from the street.

Board discussion included the 10 foot utility and drainage easement noted on the plat and how it may affect the front setback line, siting of new house in neighbor’s backyard, the note on the 2001 plat establishing the 10 foot utility and drainage easement, a reduction of the front setback from 30 feet to 70 feet is excessive, whether a denial of a 71 foot setback would preclude the applicant from seeking a more reasonable front setback, and issues with staff approving a 50 foot setback rather than the Board granting a variance for a 50 foot setback.

Jones made a motion to defer the application until the February meeting. Wunder seconded the motion. The motion passed 6-0.
