

Department of Planning and Zoning

Attn: Senior Landscape Architect

Heritage Tree Disturbance Form

Per city Ordinance 19-6.3 Tree Protection and Replacement, Section (H)(6), a Heritage Tree Disturbance form shall be submitted for the trimming, pruning, encroachment upon, or removal of any Heritage Tree, which may fall outside of development activities.

A Heritage Tree is defined as any tree greater than 20-inches diameter located within the setback or buffer area of a property, or any tree greater than 40-inches in diameter located anywhere on a property, excluding those exemptions as mentioned in 19-6.3.1 (C) Exemptions.

Approval of this tree disturbance application shall not result in any additional requirements of the applicant. Denial of this application will result in the Heritage tree mitigation requirements as outlined in 19-6.3.1 (H). This form must be completed by the city's arborist or landscape architect. City may request the applicant supply an arborists report of the tree(s) in question prior to application processing.
